ITALY

One of the best choices I've done was to come at language links. I'm an intermediate student from Italy, and in this school I met a lots of friends.

The teachers here are amazing, I had two fantastic teachers, always available for any kind of questions.

You can give them your own material, for example if you want write something, or ask something, feel free to do it.

The staff is super friendly, young, smiling, and they have always time to help you if you needed it.

We had a nice barbie as activity in kings park last month, and that experience was amazing.

Also The school is located in a central position so you can catch the bus and the train easily.

It was more a family than a school

Thank you guys
